

Steps and Stairs

An extensive range of height adjustable passenger stairs finished to the highest standards and engineered to last. Powered single operator pedestrian drive system stair elevation and hydraulic stabiliser options.

- Hydraulically powered elevating stair section available in five standard models:
2,438 – 5,893mm (96 – 232")
2,286 – 4,369mm (90 – 172")
1,981 – 4,140mm (78 – 163")
1,676 – 3,759mm (66 – 148")
1,016 – 2,540mm (40 – 100")
All fully adjustable to provide safe aircraft interface and secure passenger boarding.
- Non standard heights available to suit customer requirements.
- Fail-safe mechanical height locking mechanisms, fully stabilised to ensure passenger safety and security.
- Easily manoeuvrable on a heavy duty chassis incorporating purpose designed turntable steering and running gear. FOD resistant block pattern tyres.
- Self aligning top platform with sliding panels and pivoting nose to provide soft aircraft interface.
- Attention to detail a priority with guaranteed long term durability and ease of maintenance.
- Generously fitted with non-marking rubber buffers to provide maximum aircraft protection.
- Fixed height stair options available to suit regional jets and maintenance applications.
- Available with diesel or electric powered pedestrian drive system incorporating purpose designed hydrostatic drive system and fingertip control for a single operator.
- Corrosion resistant materials, with non-slip, self draining treads clear of trip hazards and toe traps.
- Shot blasted and finish painted to customers individual livery requirements with full wax treatment.
- Options include LED lighting packs; hydrostatic pedestrian drive system; powered height adjustment and stabilizers; overhead or totally enclosed Plexi glass canopies.
- Complies with Health and Safety, IATA and CEN Standards.
